Summary

Frontend-heavy full-stack engineer with **5 years** of experience shipping production web apps with **React, Next.js and TypeScript**. Sole engineer on **GramKick**, a kirana delivery marketplace, owning it end to end: four web portals, a Node.js/Express API on MongoDB and Redis, and Docker deploys to Google Cloud Run. At FabHotels, drove a **15-20% increase in bookings**. Works close to users, writes clear specs before building, and uses an **AI-native workflow** (Claude Code, Cursor, ChatGPT, Gemini CLI, Antigravity) with every change reviewed and gated by types, lint and tests.

Skills

Frontend (deep): React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit, Redux-Saga, Redux-Thunk, React Context, Tailwind CSS, Styled Components, SASS, Material UI, Storybook, Micro Frontends, Webpack, Babel, Performance Optimization, Responsive Design

Backend (working): Node.js, Express.js, REST API Design, MongoDB, Redis, Authentication and OTP Flows, Payment Integrations (UPI, PhonePe), Sentry

Testing and DevOps (basics): node:test, Jest, React Testing Library, Manual and Regression Testing, Docker, GitHub Actions, Jenkins, CI/CD, Google Cloud Run, GCP, AWS, Render

AI and Workflow: Claude Code, Cursor, ChatGPT, Gemini CLI, Antigravity, LLM API Integration, Prompt Design and Guardrails, Git, GitHub, Postman, Figma to Code, Agile/Scrum, Python (Basic)

Experience

Full-stack Engineer, Sole Owner | GramKick
2026 - Present | Remote

Kirana delivery marketplace connecting shoppers, stores and wholesale dealers.

- Built **four role-based portals** (customer, merchant, dealer, admin) in one **Next.js 16 / React 19** app with Redux Toolkit, an in-house UI component library, i18n, in-browser barcode scanning for billing, and PDF invoices.
- Merged **five separate APIs into one Express 5 service** without changing any route or response contract; added OTP login, UPI QR payments, PhonePe subscriptions and WhatsApp order alerts.
- Used **MongoDB** for data and **Redis** for caching, rate limiting and idempotent order writes; bulk catalogue import from Excel; Cloudinary image storage.
- Shipped an **AI support assistant** for merchants and dealers: read-only, rate-limited per merchant, with guardrails against prompt injection and secret leaks.
- Set up **Docker** builds and **GitHub Actions** deploys to **Google Cloud Run**, with health checks and graceful shutdown; 13 node:test suites across services.
- Wrote design specs (wallet payments, WhatsApp OTP login, cloud migration) before building, the way a forward deployed engineer scopes work with stakeholders.

Senior Software Engineer, Frontend | FabHotels
Apr 2022 - Present | Gurugram

Frontend lead for hotel, operations and B2C teams across FabHotels and TravelPlusApp.

- Drove a **15-20% increase in bookings** and a **12-16% boost in user satisfaction** with faster, clearer booking UI built on scalable TypeScript architecture.
- Modernized a legacy **React 16 + Redux-Thunk** codebase to **React 18, TypeScript, Redux Toolkit and Redux-Saga**, cutting tech debt and speeding up delivery.
- Reduced production bundle size by **25%** with code splitting, lazy loading and tree shaking.
- Built a **Storybook component library** shared across teams, and micro frontends joining the TravelPlusApp employee and admin apps.
- Wrote **Node.js and Express middleware** for API proxying, logging and secure error handling; set up **CI/CD** with Jenkins on GCP and AWS.
- Delivered 8+ internal admin portals (settlements, invoices, sales onboarding, corporate bookings) with role-based access.
- Brought **Cursor and Claude Code** into daily work to speed up delivery and reduce tech debt.

Frontend Engineer, Intern | FabHotels
Oct 2021 - Apr 2022 | Gurugram

- Learned production React on real features, bug fixes and code reviews alongside senior engineers.

Subject Matter Expert, Freelance | Chegg India
Jul 2018 - Oct 2021 | Remote

- Solved engineering problems for students worldwide, then moved into frontend development.

Education

M.Tech, Jamia Millia Islamia, New Delhi 2020 | GPA 7.6

B.Tech, AKTU, Lucknow 2017 | 67%

Languages

English (Fluent), Hindi (Native)
